A theme from the Pokemon games Ruby and possibly Sapphire, I think. The Lavender Town theme.

Just trying to get used to it before I get there in the game. I don't think it's working.

[Soaring In The Stars](#) by David Orr. I think this track makes a third of all the reasons I like "Flight" so much. Not that the game would suddenly lose my favor without it.

I think he used facepalm because he had to "state the obvious" aka he's listening to music.

[Heroic Confrontation](#) by, well, the same artist I mentioned most recently prior to this post.

I honestly don't think the shamans give the player a fair enough share of experience.

"[Castle](#)," apparently that's the name of a soundtrack from the video game New Super Mario Bros. Wii.

Kind of what I got out of it. Kinda seemed like they missed the point of the thread, too.

And So I Watched You From Afar-Set Guitars To Kill

...err, dunno if it actually has a name, so I'll just call it "[Maple Treeway](#)." It's a soundtrack from Mario Kart Wii.
