East Ustyia's IRL location: Judging by what they have said about their country of origin, I'm guessing somewhere in Eastern Europe, probably Edinet in Moldova.

I personally use NS stats. The stats and policies more so reflect my political views than they do my personal beliefs.

The way you so casually speak English shorthand in your factbook makes me think you're from an English speaking country. Your rejection of the Imperial measurement system would seem to indicate anywhere but America, but judging by the language you use in your factbook you're a bit pretentious. Meaning you take it in stride you use the Metric system. So I'm going to say, California. Final Answer!

Not much for me to go off here... is it too bad of a guess if I say either anywhere within the Benelux or within Germany?

Yesn't signature.

The consequences of the creation of NSG have been disastrous for NS as a whole. NSG Delenda Est.

You're English is quite good. Not shorthanded, which means you take this pretty seriously. America is a good guess, but I'd like to be a little more specific. You have this sort of, tribal sea thing going on. I think that might suggest you yourself live near a large body of water and are also fascinated by tribes. I can't pin you to a state, but I will say that you're likely from the USA, and live near/on the pacific ocean! Final answer!

Blast you're right! I forgot how proud Canadians tend to be about the Metric system.
