Dir En Grey - Dozing Green

I try to limit mine to about 2 or 3 posts in a row, because I feel 'spammy' if I do too much. Most of the time I have no reason to do a bunch anyway.

Like today for example. This thread is busy today!

[Triptykon-Shatter](#)

En, sometimes I don't wanna look spammy, but sometimes I'm just in the groove and want to let people know. And yeah, I've noticed how busy the thread is today. Pretty exciting.

At this rate, it's going to hit 1,000 pages and get locked before too long:P That is, if hitting 1,000 pages still gets it locked now (due to server issues, or something).

It's good that an A&F thread (besides the MLP ones) is getting positive and plentiful activity like this.

Yeah....and I personally don't understand the MLP one's popularity, but eh. That's just me. I guess I can't complain too much, because I hate to be the guy who whines about something he's never seen. I just practically have no interest in seeing it, at all.

No idea what that is. Most shows I watch I can't get into, because most shows these days are dull and unoriginal. My favorites at the moment are Game of Thrones and Firefly (Finished Firefly, sadly), because they are both great.

[Dub Trio-Ends Justify The Means.](#)

This drum beat always screws with my brain. This songs definitely more fitting for their name then a lot of their more metal stuff (That usually has dub in it, though). Either way, the songs great.
