we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

It's such a stupid song, but God it's addictive.

The song did cause quite a storm in Finland as it's mainly about having sex, getting drunk and a hangover. But I don't take Petri too seriously, he's known for his uncouth music. Though one could say it's a perfect reflection of our culture.

Anyway, Movits! - Fel Del Av Gården. Completely different from Märkää. ☐

Huh, haven't listened to much Massive Attack, but I can see that.

Edit: I assume you liked it though, since you posted a song from it.
