Public whipping.

Secretly taking videos of a prisoner being executed and posting it online?

-NS Stats are not used-

The Chinese government only has itself to blame for the rise of sinophobia.

Militarization and selling of these creatures until the government bans them, but no charges, and you still profit. Happened with the emus. It'll happen here.

Imperial States of Duotona

Duotona is a nation nestled in the Pacific Ocean. Marked by the scars of its bloody past, the people of Duotona persist and have given the nation a voice from which it preaches the word of peace and democracy across the globe!

Nation reflects OOC views. NS stats are sent to the shadow realm.

That's legal here. Mind you, there are specific clauses in our contracts prohibiting assault and/or murder against specific persons (and hiring someone else to do it not contractually distinct from doing it yourself). So it's illegal to hire someone to kill our organizational leaders, managers, and security forces. Putting a hit out on such persons will result in being found in violation of contract, and be dealt with via a summary execution by our private security personnel. But hiring a hit out on your neighbor (as long as your neighbor isn't a leader, manager, or security officer)? Perfectly legal here.

All forms of pederasty are at the least felonious 3rd degree lewd and lascivious conduct (5 years hard labor at a penal colony, and afterwards undetermined time of observation at a sanitarium to determine fitness to return to society as a felon) to capital lewd and lascivious conduct (death penalty).

Encouraging it? Nothing will happen since the government is unitary and has a firm grip on all regions. Actively attempting to secede? Brought back into the fold of the state. Violently.

Trying to discover military secrets.

Alternate timeline where the French Republic does an oopsie and gets booted out of the mainland to be replaced by the semi-fascist nation of the French Popular State.

Not punishable, if done non violently. In fact we'll persuade them to take autonomy instead of secession. If done violently, then.. off they go to life sentence.
