Man declines the summon, as he doesn't live in North Korea. In retaliation, Kim Jong-Un orders Man's hometown to be nuked, but the nuke gets shot down by an orbiting spaceship above the atmosphere, with most of the fallout ending up in the ocean.

Man then meets a ... vaguely familiar person (Eino Kettunen), while the spaceship returns to its home country so that they can all make plans to storm North Korea.

Then he proceeds to lick the egg that's dripping to his mouth.

Hospital has been redeveloped into luxury apartments. Man dies.

This nation reflects some of my RL views, but with everything taken to the extreme.

RL Political Compass: Economic Left/Right: -5.88; Social Libertarian/Authoritarian: 2.72

All Hail Emporer Pedro of Teletubieland!
God save the King and his commie regime!

Democracy doesn't work. Nor does "Europe".
