The origin of the name of Sao Cervantes is shrouded in mystery and legend, as no saint by the name of Cervantes exists in the Catholic canon. Some have speculated that the origin of the name comes from the last name of the Leopardo's first mate, Roberto Dias de Cervantes, although no documentation exists to substantiate this claim.

Their population is estimated to be near 4.7 million people in 2018, while they maintain a relatively high GDP per capita for a country of their size.

AN: Emmanuel Goldstein is an influential figure in Free Arabian Nation's politics, which -if they go by the canon of the book- hints that they are in reality deeply in the pocket of IngSoc.
