I am letting this nation die. I may or may not return after a long fucking while. I need a break from all the LYING AND CHEATING.

Oh, wait. That'll probably continue. I'm gonna pretend it's not happening, then.

A CD I got today, on clearance, at Hasting's, from a European band, produced in Japan. Quite interesting.

[This Will Destroy You-The Mighty Rio Grande.](#)

This bands name sounds like it could be the perfect metal band name or something, but it's not. Instead, my mind can think of all the meanings the band name could have....which I notice a lot of Post-Rock bands do: make song names or band names that you think

about the meaning (at least for me), and a lot of times they sound like they could be related to human destruction or stupidity.

Must be the mood the music these types of bands play making you, and the band members, think that ☐

Great track.

Seed of Eternity, Sigh.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.
