The camera man is a very important fellow

**2289 A.D.**

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

Ooh, love the new flag! Getting a bit of the beach vibe like before, but less this time. I still see the waves, though. Perhaps reflecting a connection with water in some way. The star + water makes me think of navigation by stars in the old days; a maritime focus perhaps?
