God is an Astronaut-Coda

I've already listened to all of their songs, or at least most of them, but going through them again to remind myself what they were exactly. I don't remember their songs very well right now, for the most part. These guys were about the 3rd Post-Rock band I really got into (Explosions in the Sky being second), so they are kind of where I started off in the genre. They have a lot of short songs, and don't go for the linear post-rock so much, but they are good.
