Monkey 513 was a stunt-monkey until he was killed filming a car chase for the next Bond movie.

Monkey 513 was stabbed to death by monkey 513, with a knife made of the bones of the also murdered monkey 513. All of this took place over the dead body of 513, who died in 513 BC by monkey 513 in the monkey war, which had monkey 513 declare war on the tribe lead by 513 and ended in the death of 513, 513, 513, and 513.

oh yeah, 496 died somehow. I don't know how I wasn't paying attention.

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 476 was rolled up in a carpet and thrown off a bridge. He escaped the carpet and swam to shore. Unfortunately, he was unwise enough to go back to the bridge he was thrown off of. It collapsed.

Monkey 475 mourned the loss of 477 as he was the only witness to his death, eventually, 475 died of a sadness-induced overdose in an attempt to move on from the death of his friend.

Monkey 474 was trampled to death by horses when they fell off Julius Nepos' shoulder while they were marching towards Ravenna to seize the Western Roman Empire from Glycerius.

Yass I know that was a run-on sentence. If you mad about it run me over with your Ferrari now.
