Get the free version of Spotify. Though, I think it's only limited to 6 months now for people who didn't get in the American version early. Because I've heard it said it's limited to 6 months of free Spotify (you have advertisements, but it's gotta legally exist somehow), but I've had it for over 6 months free. I think it's because I got an early invite from my brother.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

I try to avoid downloading music, and I do plan to buy a lot of stuff when I have more money. But not everything I have on Spotify I want to buy, and it's a good way to have many playlists of various stuff, and also good for looking up like, everything some particular artist did, and going through it. Easier then with YouTube.

And yeah, YouTube seems to be getting worse and worse.
