Gravedigging continues to be the most minor rule violation (can you name the number of times you've seen someone actually get warned for it?) and is still the one where I genuinely Do Not Get® why people do it.

Especially in F&NI where some people will go to page 200 or whatever to reply to a thread that hasn't been replied to since like 2018. Deadass my general policy for F&NI is 'If a thread hasn't been replied to for more than ~6 months, just I'll just make a new topic instead'. Obviously exceptions apply to threads where the gravedigging rule *doesn't* apply like embassy threads or whatever.

Eh, from what I've been seeing (through my puppets), most of the time it's the newcomers who do it and just don't know what they are doing is a minor rule violation on this site. It's a bit annoying yeah but they know how everything works and what the rules are around here.

The Imperial State of Ateria

Mixing elements of Pahlavi Iran and North Korea together; like both South Korea and Japan, the Imperial State does not have laws that protect nor recognize LGBTQ+.

Not sure if this counts but what about the periodic user that's openly fascist, such as Laka (albeit in the past, and has fortunately changed for the better) and Comoristaniat/Aryan East (who got banned and I wonder why)

A Pacific nation that's primarily a melting point of Polynesian, East Asian and French cultures, to rephrase: a MT liberalwank nation whose main premise is composed on a melting pot of cultures and ethnicities

Here's a fun game I like to play whenever I see a new user who openly declares that they're a fascist/alt-right/far-right in their signature:

'How long will it take for them to get banned from this site?'

Summies are annoying, especially when they jump into threads like F7's "your soldiers train AN's soldiers" and then drop a single line, while lacking the dedicated factbooks necessary to create a response.

That or they just play dumb and screech when you point out that they kinda NEED a factbook for that stuff.

☆ MA LAI YA UNION ☆ 马来亚 联盟 ☆

A scenario where the Chinese people took over Malaya and replaces its Malay and indigenous tribal inhabitants. Under the technocratic authoritarianism of Lee Kuan Yew and his "Kongsi government", the quasi-apartheid state had grown into a global industrial behemoth equal to Korea and Japan. Yet the specter of Maoism among poorer Chinese and extreme Islamism among Malays is ever-present...

Idk what to properly call this but flag location clichés

Like if you have a flag with left-wing symbolism on it, people will always think your nation is either in Eastern Europe (because of the USSR) or East Asia (because of China), MAYBE theyll think it's in Southeast Asia because of Vietnam tho (but never Laos).

Tbh everyone has beef again Textk due to how low quality their posts and nation is. Hell, they are like a summie that just refuses to give up, thinking they are hot shit as everyone groans from every post they make, defying logic and common sense. I still recall that one war thread where they tried to rally the multiversal community against a small uprising... By wiping said uprising off the face of reality in one fell swoop, prior to asking people to pick sides as if it even mattered at that point.

Or the latest string of incidents with a "totally harmless and mild orbital weapon" that has the capacity to wipe entire countries off the map by flashing them with enough radiation to tear a literal hole through the atmosphere and destroy all biological life right under the satellite more or less in an instant. And this is supposed to be a "nonlethal deterrent"... Somehow.

I actually have a lot of respect for Textkentuck. He has demonstrated impressive perseverance and his war system is very innovative.

If there's no life on earth left after the first shot, then by its second firing, it's technically nonlethal!
