The Stench of Burning Death, Repulsion.

Much better than I had expected.

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

The End of Science-The Sun Rains When You're Not Looking.

Good 17-minute post-rock song, though the quality doesn't sound the greatest, even though it's on Spotify, which 'usually' has pretty good sound quality. I kinda get the impression it's more a stylistic way of doing the recording, or the bands just not well known enough to have enough money to record at high quality (like Sigur Ros' first album). Which seems possible, since this song doesn't seem to exist on YouTube.
