Korn Ft. Skrillex-Get up.

This is the song where I got first introduced to "Dubstep", because my dad was talking about the new Korn song and it having an electronic artist on it. Then how the whole album was like that and we got interested to see what it was like. So that was how I moved on to Skrillex, liked Skrillex, moved on from Skrillex, and no longer liked Skrillex as much.

everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there
