Monkey 1294, who was protesting against the occasional slaying of multiple monkeys per post, was run over by a SWAT truck in the middle of the demonstration he was participating in.

Monkey 1291 (should've been mentioned), the female whom 1293 and 1292 vainly fought over, was also a victim of 1290's crimes.

1290 was forced to watch gacha life due to her crimes. She died of cringing so hard her eyelids melded together and turned her blind, leading to her slipping on a banana peel and dying while the burn of gacha life YouTube kept breaking her soul in monkey hell.

One monkey at a time.

Monkey 1287 opened a window. Not usually fatal, but said window was on the ISS. Several humans and one monkey died in that moment.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin. Shockingly, we *do* use NS stats, with the exception of lifespan.

Monkey 1277 was murdered in cold blood by the psychopathic monkey 1. Monkey 1 apparently has a plan to save himself which includes killing lots of his kin. For now, he thinks he can get away with it...
