Though Le Patron is not a religious man at all, he seems to have an interest in the Mohammedan religion aside from dabbling in the occults and New Age lunacy. Away from prying eyes, Le Patron chatted with Afghan mujahideen fighters who are attempting to secure the Patron's support in overthrowing the Afghan government; one of them Osama bin Laden. Le Patron is on his way to establish a new kind of Islam - Islamic Futurism, unadulterated religious puritanism fused with Futurist violence. An alliance of pragmatism between Salafism and Futurism. Osama simply told the Patron: "Allah willing, we will triumph against the west *and* the bourgeoisie". Biting his tongue and hiding his contempt for his hedonism. ~~Know it's 1968 and it's too early but who cares~~

"What is with the strong man's talk of "unity"? Men are very unique and individualistic organisms, no amount of state ideology or societal engineering could turn them into a mindless and single-minded collective. The Muslim world has been lagging behind with royals like the Saudis and the Hashemites complacently ruling with Western support in exchange for Gulf oil. But Sultan Arslan is a different man and his progressive values would put him at odds with the more traditional-minded Muslims. Pfft, the Arabs are hardy fighters of the desert in hard times such as under Ottoman and British rule. Arslan is only making his people complacent with a temporary period of peace and prosperity. But we have something in common; our hatred for liberalism. A scourge for us and the Muslim world."

"You are certainly quite an honorable figure. Your military service and education makes you quite a well-establish prospect, as well as despite your pagan outlook, you honor your family even in the fact of politics. I even commend you for defending your ground against police-force reformation, though I cannot speak for my police forces are equipped with spontoons and rapiers rather than beanbags and batons. However, I will not tolerate you removing Catholic influence in order to install a pagan religion built around some ancient, irrelevant DC superhero ploy where should have lied the words of Christ that were spoken to your people, whomshaped them to be a mighty, sustainable civilisation. Because of you, Tamakuni has exchanged the sweet embrace of holy water for sweat from the thighs of a false idol. Please, if you care about your children, let them see the light."

-Grandmaster Baldassar Cagliares

"Oh, you believe that with your pseudo-intellectual speak you'll sweeten my ears enough for me to bow down to your fuckin' religion, eh? Let me tell you something right here, buddy. Want to know who treated my kind and my Ikakami brethren like disposables? The Spanish, the Catholics. They tried to turn my kind into a lowly human clone, not to mention the horrific plans they had for the Ikakami. The fact that you're right here, with your despicable self trying to put down arguably better religions that preach actual equality and love instead of shunning individuals away if they do something your "God" doesn't like... it makes me laugh, honestly. Your religion has no place in the modern world and I'm proud I'm removing it from Tamakuni, as it has no place in a developed country like mine."

- Kurumi Ogata, Prime Minister of Tamakuni

"This individual is a primitive human, both in terms of technology and outlook. The generalized work ethic and highly regimental lifestyle bear some similarities to our own, but will not be a factor in any potential interactions. The assassination of his parents might cause him to be more attentive to details than most, making liquidation a slightly more difficult prospect if that course of action should be considered. Frankly, I would wonder why such a person as he would warrant our attention. He would pose a minimal threat under the best of circumstances." -[Ilia](#)
