Tinashe - Let You Love Me (XXYYXX Remix)

6.9/10 for this mixtape. Really disappointed with this one, after enjoying another one of her's quite a bit.

Okaaaaayyy...Lyrics seem quite random.

The first part makes her sound like a twisted 5-year old...

Mastodon-Tread Lightly

You know what? Screw it. I'll give their new album a try. But right now, based off of the singles, I'm honestly going in to it expecting to rate it the lowest I've rated an album I've intentionally listened through.

Meh. The vocals aren't very good in this track.

The progressive metal elements aren't doing much for me, either. Doesn't really bring anything "new" to progressive metal for me to give a crap.

The end section of the song is okay, though...until it breaks out into a generic progressive metal guitar solo.

Mastodon-High Road

I think I have stated my opinion on this song plenty of times already. I honestly think the chorus is pretty awful, and the rest of the song doesn't exactly do anything for me, either.

There are sections in this song that come off as exactly the same complaints I had with the new Gojira album. Where it just turns into "Try hard" progressive metal, for lack of a better term.

The Queen has taken an interest in the "German" musicians "Die Prinzen". She is currently listening to their song titled "Deutschland". Due to royal interest, the band is now a hit throughout the nation and it's loyal citizenry.

Really? I think the fact it's not even the band themselves singing it makes it worse, actually. More lyrics that's typically a good sign of an originally shitty band, or a band going to shit.
