Silversun Pickups-Bloody Mary (Nerve Endings)

I still think, despite it being the least highly received, that this is the strong point in their career so far. I dunno, just the musicianship feels even more refined, the lyrics more clever, and generally just their best. I found myself enjoying the quality of this album more than their others.

Though, I do like their others.

Nah. I'm not someone who is that into autographs. But thanks anyway.

Lorde-Tennis Court

God, why do I keep listening to this? I'm supposed to be listening to new music!

Absu - Amy

“ **CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
