The Arshanid Deccan is a pretty self-explanatory land. The former is after the name of the guy who founded the current dynasty, the latter is the geographical term used for the region the Sultanate is located in.

The Bank of Khomney, a central bank with a foundational role in the largely industrial economy of Khomney, is built according to the popular Neo-Classical style, similar to the NYSE building.

"Somewhere far away, in the distant dunes that rest silhouetted far beyond the ethereal horizons of good and evil, Convallaria has emerged as a technocratic dreamscape of shimmering ambitions and passionate indulgence. A pioneering realm of unbridled industrial sprawl and paranoid black-market underworlds centered around three things: champagne, wealth, and vigorous McCarthyism..."

Eridans believe that there are spirits shared by groups and areas which transcend individuals. As an example, a military unit would have a literal shared spirit that embodies its attributes.
