Aerilia is lying! They're not a unicorn, they're a Welsh Dragon!

I know this may seem lazy, as I'm quoting a signature - the first thing of the nation's writing I can see, but I have read through the factbooks and this remains the best thing to take out of context. (Well, in the signature, it's out of context as well)

What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).

The faces of this thing:

[Vice Archbrain Metron Vektorin](#)

This nation or its characters are not intended to represent my social views, or political views in their entirety (although I am a supporter of technocracy)

There used to be a lake here with water, but it dried up.

Astute clarification. I'm glad I didn't mistake it for a lake of manure or yogurt.

"Convallaria: A sprawling sun-soaked dreamscape silhouetted far beyond the ethereal horizons of austere morality and petty mediocrity. But behind the sterile flights of state-sanctioned-fancy lies a paradise lost...a land of milk, honey and sex turned rancid in the sun, as the harshly held colonial disciplines of a bygone era yield to the temptations of society's nighttime fragrances..."
