Robots shouldn't have rights or citizenship;
Compromise on other non-human sapient entities is possible, with limitations, but not on these buckets of bolts. They should serve humanity and have absolutely no place in society other than as our servants. Think of the benefits of this. Plus, they would almost certainly overtake humanity if we gave them the chance, whether out of pure advanced abilities or malice, or worse, both. Think of humanity.

The nation name is technically "Adharcáilí," (pronounced "ay-er-KOH-li") with accents over the third A and second I.

Unlike...some people, I actually call nations by what's they want to be called. Except people kept giving me random nicknames, including but not limited to Simon, Siminoa, and Simstermeister. :/

Hello there. I'm Simonia of MJT.

Our nation has twenty-one provinces, four regions, and four capitals. And before you ask, Pink Castle City is called that for its pink castle, Pink Castle City's main building.
