Good stuff.

Edit: Oterro and Consumar might like this.

Spin off project for maudlin of the Well, right?

I like maudlin but I never got 'round to Kayo, my hard drive is nearly full unfortunately.

Reach Out Into the Truth, Shoji Meguro.

only good track from the persona 4 OST unfortunately.

I don't know. All I know is my dad said I should listen to them, so I did. And I liked it quite a lot, actually.

Also, it's funny now that my biggest hard drive used to be 40 gigabytes.....I installed a 13 gigabyte game on that and it was insane. Now there is no way that size would satisfy me at all. I now have 500, and there's still quite a lot of room left on it, actually. I only have about 6 GB of music on my computer though, and a lot of it doesn't need to be on there. Though, I should just add everything from my dads computer and go through it slowly, getting rid of what I don't care about.

Kayo Dot - "Gemini Becoming the Tripod"

Okay....let's see if I can make it work right. It didn't want to work with my mom. I think it was because her account wasn't 'public', so depending if yours is like that or not, it might not work.

[Bjork-Hunter.](#)

One of my all-time favorite Bjork songs.

And I just added you (At least I think I did). Does it add me when I add you? If not, mine's Petalflipper (To add people apparently, you need to do it in all lowercase though, it seems)
