Tech levels incompatible? Then kick me out of the thread, because if you RP with me you accept my tech.
Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

Is that a good thing? Some of the worst songs for me are the most catchy.

Depends on the song. Relentless is very good song. However, the song I find the most catchy, Winter Wrap Up (one of those pony songs), is the one I really ~~hate~~ dislike. When I first heard it, it stuck into my head for 5 weeks...

We are a liberal Democracy with many vocal, sometimes disruptive and often smelly opposition groups. These are tolerated with amused smiles and the occasional application of a well-placed baton.

[God Dethroned - Poison Fog](#)

CVT Temp [wrote:](#)

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of

evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
