Though the lead singer is pretty creepy looking... ☐

You see, like i said last night... "leave it to Anollasia to argue the genre". But now why with yourself? ☐

I don't understand what you're trying to say.

Thank you again. ☐ I post links to the songs, not just titles, for others to enjoy. I am blessed with a good ear and instant recall of years of listening and coupled with Youtube and other sites I am enabled. You can backtrack the thread, but I will continue to provide the tunes. Sometimes I get into jags on progressive or new wave or just about anything, except disco. I love the period between 1976 and 1986 in particular for new wave, modern rock, alternative. Anollasia can argue, lol, which is which and why, but I love it all. It is truly nice for you to speak up as it is encouraging... ☐
