Monkey 2409 argued that masks are a form of control and should not be mandatory. He was later found hanging from his ceiling fan with 23 stab wounds in his back, cyanide in his bloodstream, and 11 bullets in his abdomen. His death was ruled a suicide.

Monkey 2408 was teleported to a Roblox game when an announcement said "Explosion imminent; Evacuate the facility immediately" followed by 60 seconds of intense music which made the monkey confused, he saw a number of cars rushing towards an escape helicopter making him more confused; After the 60 seconds of intense music were up, the helicopter lifted up quickly and fled away which was followed by a 10 second timer, after that was up, the facility's energy core powered by nuclear exploded creating a nuclear explosion and the monkey was vaporized in the blast instantly.

Monkey 2406 had his consciousness and soul uploaded into a computer. On the advice of a 4Chan tech guru, he then deleted Monke2406.exe and Msoul.exe while trying to turn his avatar into the triforme.
