Billy Joel - Piano Man
From *Piano Man* (1973)

*It's nine o'clock on a Saturday
The regular crowd shuffles in
There's an old man sitting next to me
Makin' love to his tonic and gin*

*He says, "Son, can you play me a memory?
I'm not really sure how it goes
But it's sad and it's sweet and I knew it complete
When I wore a younger man's clothes."*

*La la la, di di da da
La la, di da da da dum*

*Sing us a song, you're the piano man
Sing us a song tonight
Well, we're all in the mood for a melody
And you've got us feelin' alright*

Male, 23, Indonesian

Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

Bruce Springsteen - Streets of Philadelphia
From *Philadelphia [Original Soundtrack]* (1993)

*Ain't no angel gonna greet me
It's just you and I my friend
My clothes don't fit me no more
I walked a thousand miles
Just to slip this skin*

*The night has fallen, I'm lyin' awake
I can feel myself fading away*

*So receive me brother with your faithless kiss
Or will we leave each other alone like this
On the streets of Philadelphia?*

U2 - With or Without You
From *The Joshua Tree* (1987)

*See the stone set in your eyes
See the thorn twist in your side
I'll wait for you*

*Sleight of hand and twist of fate
On a bed of nails she makes me wait
And I wait without you*

*With or without you
With or without you*

*Through the storm we reach the shore
You gave it all but I want more
And I'm waiting for you*

*With or without you
With or without you
I can't live
With or without you*

U2 - The Fly
From *Achtung Baby* (1991)

*It's no secret that a conscience can sometimes be a pest
It's no secret, ambition bites the nails of success
Every artist is a cannibal, every poet is a thief
All kill their inspiration and sing about their grief*

*Oh love, we shine like a burning star
We're falling from the sky tonight*

*A man will rise
A man will fall
From the sheer face of love
Like a fly from a wall
It's no secret at all*

U2 - Mysterious Ways
From *Achtung Baby* (1991)

*Johnny take a walk
With your sister the moon
Let her pale light in
To fill up your room
You've been living underground
Eating from a can
You've been running away
From what you don't understand
Love*

*She's slippy
You're sliding down
She'll be there
When you hit the ground*

*It's alright, it's alright, it's alright
She moves in mysterious ways
It's alright, it's alright, it's alright
She moves in mysterious ways*

*Birdland on fifty-three
The street sounds like a symphony
We got John Coltrane and 'A Love Supreme'
Miles, and she's got to be an angel*

*Lady Day got diamond eyes
She sees the truth behind the lies
Angel*

*Soul love
This love won't let me go
So long
Angel of Harlem
Angel of Harlem, yeah*

Bee Gees - Stayin' Alive
From *Saturday Night Fever: The Original Movie Sound Track* (1977)

*Well, you can tell by the way I use my walk
I'm a woman's man: no time to talk
Music loud and women warm, I've been kicked around
Since I was born
And now it's all right, it's OK
And you may look the other way
We can try to understand
The New York Times' effect on man*

*Whether you're a brother or whether you're a mother
You're stayin' alive, stayin' alive
Feel the city breakin' and everybody shakin'
And we're stayin' alive, stayin' alive
Ah, ha, ha, ha, stayin' alive, stayin' alive
Ah, ha, ha, ha, stayin' alive*

Bee Gees - First of May

From Odessa (1969)

*When I was small, and Christmas trees were tall
We used to love while others used to play
Don't ask me why, but time has passed us by
Someone else moved in from far away*

*Now we are tall, and Christmas trees are small
And you don't ask the time of day
But you and I, our love will never die
but guess we'll cry come first of May*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
