Man is violently ripped away from reality and totally modified to be Kale Salad Man, and Kale Salad Man is given the ability to psychologically assimilate any living thing, so that they also become Kale Salad Man. Kale Salad Man is then sent to assimilate everyone simultaneously; All Of Man Is Now A Kale Salad.

Kale Salad Man then goes on a walk through the most scenic parks of his newfound Kale Salad Planet, where there is no longer any biological diversity, there is only, and will only ever be, Kale Salad...All Hail King Kale Salad Man... Bow Down...

Man eats cheese, which then he turns into a bowl of salad. what do you do as a bowl of salad? it will take 10 years to reach the remote which will somehow turn you back into a man, or you could draw the attention of the children which will result in you being eaten so then you could restart when you were eating cheese.

Before taking his last breaths, in a heavy stupor from the drugs injected directly into his spinal cord, Man hits the massive cart hovering next to him, toppling several vials of the drugs' antedote, the needle of which plunges into his arm veins and is injected in by the force of a different vial landing atop it. Man survives.
