Another one of my favorites by her...but it's depressing, solely because of what it's about.

Now for a dramatic change because it just came into my mind for no particular reason whatsoever....and I don't even know why I entirely like it. Though, it's definitely not on my favorites by any means.

You know some vocaloid artists/bands, don't you, Azrael? Could you name them for me? I have some friends who are into vocaloid.

Ah yes, that. Seeing you listen to Touhou music is rather odd, man.

I'll send you some stuff if you want. Or I can just list artists here. It doesn't matter to me; it all depends on your whim.

Metallica - Master of Puppets

intended replacement nation for United State of America  
(original the character donut steel)

*Who is in control of those in control?*

Why does Ben Lee (who I assume is the linoleum faced 'wipe-clean-look' profile in the bottom right-hand corner) look like Rene Auberjonois? Why would Odo be hanging around a rubbish looking holo-world full of quidditch goals that vaguely resembles rejected Final Fantasy 13 concept art? And what happened in order for him to want to breath tornados? And how?!... It would take a vaster intellect than mine in order to answer those questions.

Dir En Grey - Jessica

I love how they still seem so natural playing J-pop. Even after I've familiarized myself with all their newer, more experimental and heavier stuff, they don't sound out of place at all. They really have evolved their style a whole lot over the years. Good song, too.

They also look natural with all their bright happy faces when performing this live, which is rather uplifting.
