Yeah, my number isn't that impressive compared to you and Cadonica (and probably the majority of the people in the music thread), but it's a milestone for me. ☐

With the exception of the double LP, they were all albums I had listened to before...but still.

What is this "10 in a day"? Number of albums?

I used to pretty much do that. Now I'm finding I get bored sitting at my computer for too long like that. Especially since I didn't have anything I felt like doing at my computer at the time, either.

I'm not sure proving I have no life is "impressive" ☐

Recently though it has been more like 5 a day tops, mostly less. Especially with playing lots of GTA V Online. Liking it that way. Trying to dwindle more away from my music hobby in general, to focus more on gaming again. But I still need to finish rating everything...That's important ☐ I gotta get as much as I can done before August 1st, which is when I go on vacation for a month like I used to do yearly for a while

Yes, my record is 22 ☐

I don't think I'll ever break it... it was back when my backlog was 100+ albums ☐

And most of those albums were Yes and Teutonic 3. When my backlog had Slayer/Anthrax/Destruction/Sodom/Kreator/Yes/King Crimson/Pink Floyd/Rush.

Today I have to marathon these songs like maniac if I want to get most of them scrobbed (because I want the scrobbs right damnit!) before leaving to army tomorrow.

But Saturday is my "I'm not doing a damn thing" day. Plus Saturday is usually the worst day of the week; it's mentally draining (sitting in a house all day with everybody home...fun stuff). The fact that I mustered up enough energy to plow through 4 albums and a double LP is most certainly impressive. ☐

Month long vacation? Nice.

And I've kind of been trying to do the opposite; lay off the gaming and spend more time listening to music. ☐ Because all the music I listened to today has put me in the best mood I've had in months.

Fuck, I love his first album - it's hard to beat Music by Cavelight when it comes to triphop and chill music.

I RP, so that's partly what distracts me, but a couple of days there was really nothing for me to post...and I'm only in 2 RP's now. Trying to keep that to a minimum as well. Though there's still lots of side forum RP stuff I can do. Honestly I'm not sure how I suck most of my life away half the time...

“

Month long vacation? Nice.

Yeah. Grandparents started paying for us to come down yearly

(Except it has been 2 years almost now), for a month. Was hesitant at first years ago because I've been known to have major homesick issues (When I was younger), but at that point and age I didn't have many problems at all. Honestly ,as much as I love it up here, half the time I didn't WANT to go home after a month...Though there's still that feeling of comfort in being in your own home, with your own stuff, with your own way of doing things. Like using your own computer instead of some other persons...Always feel weird using peoples computers.

“

And I've kind of been trying to do the opposite; lay off the gaming and spend more time listening to music. ☐ Because all the music I listened to today has put me in the best mood I've had in months.

Well, other then games here and there (Finished Bastion, for example), I really haven't played many games in a long time. It has mostly been GTA V, tidbits of other games here (Though I did play lots of Battlefield: Bad Company 2 at one point), and games like The Last of Us and Beyond: Two Souls when they came out...I have so many games I need to play sitting around I feel like I need to focus on that more. Kinda surprised I slipped away from gaming as much as I have, honestly.

“

Got caught up reading articles, going to be for real now... ☐

Articles can be distracting. But usually because they're interesting or informative, though. Because I like to be informed (My Grandpa says that and watches Fox News ☐)

And then I saw one album in the backlog. Well, shit, gonna listen after this live album. Then I'll marathon the rest of Whitesnake.
