### Gov't Mule - Horseflies

Founded: 2480  
Current year: 5001  
Magic: Non-negotiable  
Ponies: Yes, occasionally  
Tech levels incompatible? Then kick me out of the thread, because if you RP with me you accept my tech.  
Note: Before 2480, Olwe was called Athan. If you see this word in a thread, it's because you mentioned a year incompatible with Olwe in that thread but still made it open to all techs and therefore are allowing Athan's magic.

Zuni is FT, but will recognize FanT and Pony nations. I am also capable of playing in MT or late-PT threads if needed, by switching blasters for revolvers and speeders for horses.

*Crematory - Dreams (Deep Growl Mix)*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

I support peace in Israel and Palestine. The governments and people in power on all sides are an absolute disgrace, and their unwillingness to pursue peace is a disservice to the people they are meant to be serving. The status quo is not simply untenable; it is unquestionably unacceptable.

### [Deftones-Feiticeira](#)

I've been on the fence about giving this album a try. While I really quite enjoy one of their songs (the one my dad showed me to remind me I did know who they were, which I did), just from the stuff my dad showed me they seem like a band that might be hit and miss for me. But might as well give their most highly praised album a try.
