LEGO Lord of the Rings - Mithril Disco Phial

Basically a musical remix on words that characters have said.

Such as,

"Break the dam"

"We ride for Gondor"

I feel so damn nerdy, but it's so catchy.

Alas yonder woman, damn you tempt me with thy saucy bosom
thus methinks I shall bestow my codpiece in thee & make naughty love to my
lady all night
Please haste hither & quench this torment fairest maiden
get some

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

There's a Muse song titled "Save Me" ☐ Though it doesn't even have Matt Bellamy singing on it.

Edit: Not that that is important to mention...but yeah.
