10,674 since 20 April   
But I've cheated a little. Like I imported my plays, gave 2600 one second after creating the account. And when I've gone for lunch or something similar, I've just left the music playing without actually listening to it. I want my scrobbles right goddammit! When I click import I expect it to import all 20,000+ I had on media player but nooooo.

The Mars Volta-Cassandra Gemini

30 minute song, probably will skip through most of it.

Mostly I'm skipping because I'm plowing through stuff I deem decent or okay quickly to rate them.

The Mars Volta song is a prog rock song with some jazz in it, but still skipped through it ☐

I take back what I said about jazz influence being acceptable for skipping ☐

Pretty sure you'd probably dislike The Mars Volta singer more than I do, but I dunno.

Quick check \*checks\* oh well, generic high schooler, just like the rest 1,000,000 bands out there. Not too horrible but completely forgettable. Inb4 some Mars Volta fanboy/girl jumps on me for that and cusses my bands. Don't care ☐

The Mars Volta's first album is considered to be the #2 best of 2003 according to RYM...

But yeah, I laughed at your comment on it ☐

Now for you to try At the Drive In....

The Mars Volta-Viscera Eyes

Might be my favorite The Mars Volta album of the ones I went through (Ignored 2 completely), but still not exactly something I'd listen to on a regular basis. Plus side is I haven't just skipped through the album yet except on the 16 minute song.

Elvis Presley - Always on My Mind

*Maybe I didn't treat you  
Quite as good as I should have  
Maybe I didn't love you  
Quite as often as I could have  
Little things I should have said and done  
I just never took the time*

*You were always on my mind
