Their national anthem is: "Semper Liberos", whose melody is from Anthem of Republic of New England.

A nation of Slavic Mars' colonists who escaped from the nuclear apocalypse of Earth. We have not the Fully Automated Luxury Gay Space Communism (and we will never be gay). Our mission.

A combined race of Vikings and American Natives who appear somewhat Asian, located in the N. Atlantic.

Tried the whole *Lets Build an Imperial Empire* thing, and then the *communism* thing, but now we're a chill island nation.

Sometimes referred to as the "Japan of the West" by the White Westerners.

Immarsia, at first, remained loyal to the British Empire. However, in the midsts of the American Revolution, Immarsia surprisingly switched sides and fought for it's independence alongside the young 13 Colonies. The Industrial Revolution came around, and fears of socialist-style insurrection led to a fascistic order emerging in the country.

That their government mostly consists of highly conservative parties, one of which advocates the total ban of Islam and the ban for pornography, particularly on the Internet. Given that the nation is set in the 1920s, the latter might serve as the indication of the AU's development.

New Spiedska: There is a great degree of uncertainty in the scientific community regarding the origins and early history of the Inklings race. While it is generally accepted that they originated from Earth, some believe that their features are too unique for that to be the case. The time of their arrival on the American continent is also a subject of debate, with estimates ranging from 16,000 to 9,000 years ago. By the time they made contact with humans, they were significantly more advanced, and the early Native Americans regarded them as superior beings - either as powerful benefactors who would periodically grant them gifts, or as feared demons capable of razing entire villages to the ground, depending on the attitudes of the various Inklings tribes they interacted with.

New Makasta: They are officially known as a "Peoples Untied Democratic Republic", which leads me to wonder what exactly that means. Is it a metaphor for freedom, or do they despise formal wear?

Dunkin' Donuts: In their world, large-scale environmental revitalisation programs have prompted the moving of heavy industry into space, and extraterrestrial development in general is far more advanced than it is in OTL. There exists a fully-fledged city in space, named Astropolis, with Dunkin' Donuts being the first Earth-based company to establish its services there.

Although the Cantelo speak a language known as Canteles, a romance language which has overtaken OTL Catalanian, their current ruling family can trace their origin back to the English, which means that Canteles is a mixture of Germanic (English), Occitan (Which is Celto-Romance), and Romance (Catalonian) languages.

Honestly, the idea is pretty interesting.

A lack of alcohol and one minor case of physical abuse against a government official lead to a civil war. Are you sure you're not Ukraine?

It is considered small compared to our allies, which have upwards of 5 million soldiers, and tens-of-millions of robots (at least 20 million soldiers is what we consider a "large" army). This "small" army was created after the Great Islands War, to protect Onfande from future attack. Also, I don't really want to use robots in my army, which is why I have 90 million reserve. This is why it is considered small.

If I ever do run out of soldiers, I'll basically be out of manpower, and the nation will die from invasion. I hope this never happens

Their army is heavily influenced by Prussian ideals and theories on warfare, and is small, but well-equipped and well-trained, putting quality over quantity.

We do not use NS Stats, policies, or otherwise. Please only judge us by what is in our factbooks.

An alternate history version of China in which the alliance between the Kuomintang and the Communist Party never broke down, eventually resulting in a federalized, democratic China. Though one of the world's strongest economies and an emerging superpower, China continues to suffer from high rates of income inequality, an overreaching and sometimes corrupt government, and cultural issues that continue to persist despite the efforts of many reformers over the decades. Most factbooks are still an active WIP.
