Monkey 5365 bought a monastery for a tidy sum, turned it into a place of sin,
and got lynched by the former monks.

Monkey 5360 invented a time-machine which teleported it to year 2030. In its terrains there was a nuclear war and it died because of gamma radiation.

Monkey 5345 promptly executed Monkey 5346 for spouting falsehoods, given that there are 500 pages before the limit and already almost half the monkeys are dead. He then committed sudoku upon realising that that meant the senseless deaths were not yet done, his corpse displaying a perfectly solved puzzle of impossible difficulty.
