A not-so-pleased sheriff would drag that prankster's ass to the police station. There, he gonna have to pay a big fine or spend some time in jail. Of course, if he damaged the car, costs of the damages gonna be added to a fine. And if he sold or lost it, he's gonna have to return it (We don't care how, steal, persuade, beg, whatever) or pay it's price.

A bunch of guys purchases some cow blood and draws a pentagram with it on the floor in their house. They chant some words and summon a small demon, who swears, that he will serve them and fetch them beer anytime they ask.

Sky Reavers are retconned Skyhooked. A bunch of crazy, wild everpartying semi-anarchists, who are resistant to cold, heat and diseases, can process booze like hell. MT/PMT tech. Wanna know more or have a request? It's here: <https://forum.nationstates.net/viewtopic.php?f=23&t=505973>

Remember, the fact, that we are semi-anarchy doesn't mena, that ya' can go around and rob random people. We still got law and order, loose as they are.

A thorough examination to see if this can be exploited, before execution.

Stealing *really valuable* pencils with the outside part made out of diamond.

I mean there's no use for obsidian pencils anywhere, much less in Gonswanza, but theft of pencils, in general, is illegal, as it counts as theft, on the account of stealing physical shipments.

1 month to several years in jail depending on the amount stolen, plus monetary damages paid by the criminal responsible. Plus a hefty fine. And mandatory community service.

The Algerstonen Department of Compliance will take them in and apply Forced Confession and Re-Education protocols to determine any links with underground anti-Algerstonia movements and to intimidate them into not doing it again, then if it is the criminal's first offense, they will be released and moved to a different area of the country and put under heavy surveillance. If it is their second confession, they are either imprisoned for life or put into a free labor job under a megacorporation until they outlive their usefulness

Given that we're talking anti-government propaganda, punishment would probably be more severe than if it was just a spray-painted smiley face. A fine for damages and incarceration for certain, though how long in the pokey they stay might depend on the personal biases of the judge.
