I've certainly seen them around frequently enough.

...and I just realised how close their name is to the Likhians - a non-Rhanukhani people mentioned in my history factbook - I'm surprised that I hadn't picked up on that before.

They are well known, but they are being missed by the disappearance of the F7.

Unlike most users I've examined, Likh seems pretty isolated from his region, and only sometimes appears in F7, but I personally have seen them around. So not very well known, but it's a recognizable face.
