"I must say, Maxmillian's combat prowess is certainly a feat to admire, though some of your beliefs are certainly... unorthodox. So the Swedish and Prussians attacked the Polish populace... is that regime still around, and even then, are you willing to engage in talks with them? It seems your thought is unfortunately not as diplomatic and reasonable as I had hope, or else your grudge against those Swedish and Prussians, whoever they may be, would have faded long ago. Infact, this grudge of yours and mannerisms makes me question if you truly are fit to rule, lest also question your honor. I hope the rest of the white man is not like this; your society seems advanced, but when you look under the surface, you see the most interesting, beautiful and disgusting things. Though who am I to speak? My position was earned through prowess in combat, but a responsible way of thinking as well."

"A tribal conqueror, eh? Good stuff, good stuff. Haven't run across one of them in a while. Honestly, this guy appears to follow the usual archetype of "fuck, conquer, pillage". Which isn't *bad* per se, but... eh. Not very creative. Not exactly a potential market partner either - I doubt his people have anything much to trade, at their level of societal organization and tech. Wait... a *vegan* plotted to kill him? Am I reading that right? Vegans in the 1400s? Well I'll be. Yeah, never did trust those plant-munchers, to be honest. Anyway, back to the actual man himself... Honestly, a spar with him would probably be quite interesting - though I guess I'd have to give myself a handicap. No hands?"

## The Osean-Belkan Democratic Administration Under Larry Foulke

"Borders are illegal."

Larry Foulke:

Again, like my earlier statements, he's a pretty cool guy, as long as you don't piss him or his nation off, and you'll be fine, his nation's weird at times but the person who rules it is perfectly fine, at least by sin standards, oh well.

The Osean and Belkan Alliance

"Osea, Belka, now united as one."

A world where Belka fell into a civil war after the Belkan War, Osea and Belka unite as one nation and one alliance, and no they aren't scheming, they watch in silence as Erusean radicals are gunned down.

*Fascinating. Though the Skyhookedian leadership have no doubt attempted to cover up their successes in genetic manipulation, the shining example of Shawn Bjornson is seen clearly by men such as myself. All the more proof that my research is not only practical, but of paramount importance to not only the Vanguard Republic, but to all mankind. Bjornson does, of course, still apparently suffer from some of the psychological side effects I have encountered in my own experiments, though he perplexingly displays a surprising level of overall mental stability. Perhaps there is something that can be learned from him. If he or another example of an engineered being could be acquired for testing, we could finally find the breakthrough that will allow the Supersoldat to become more than just a crazed berserker. Perhaps this will be the first step toward the future of human evolution.*

Bjarnson does, of course, still apparently suffer from some of the psychological side effects I have encountered in my own experiments, though he perplexingly displays a surprising level of overall mental stability. Perhaps there is something that can be learned from him. If he or another example of an engineered being could be acquired for testing, we could finally find the breakthrough that will allow the Supersoldat to become more than just a crazed berserker. Perhaps this will be the first step toward the future of human evolution.*

- Director of Theoretical Research, Dr. Lazar Korius

(BN: While you could do Korius, I recommend you do Kalrand, since he has the most info and is the actual leader.)

"I can only access partial information about Kalrand, because it seems that the data was corrupted in the process (again). Of note is Kalrand's unique and interesting, if somewhat vague, take on revolutionary ideals and goals. Overall, he is one of the leaders I agree the most with out of all the ones I have been able to gather information about in the multiverse, despite some ideological differences"
