[Stars of the Lid-Articulate Silences Part 2.](#)

If anyone's a fan of ambient music, these guys are perfect...

Ambient? Perfect? *goes to check*

Meh. I'm more into dark ambient like Immundus and Ancient Tundra...

["Spirits of the Dead" by Immundus](#)

This is perfect ambient <3 [IMO, just in case there's some assholes who can't see this as opinion without stating it's one.]

I more meant in the sense that they were, well, very ambient ☐ They do very good in that realm of ambient music, but I prefer dark ambient as well. And I would say I've heard more creative ambient, but I can tell they were just going for a very laid-back, mellow atmosphere...and I bet it's damn well hard to play that mellow.

Also, I like what you posted.

If you want dark ambient, I suggest [this](#), [this](#), [this](#), and [this](#). At least, I feel like they could count as being dark, at least a little. (Notice how two, if not 3 of the ones I posted have cello. I love cello for a dark music sound)

Deicide - *Serpents Of The Light*

“ CVT Temp [wrote](#):

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
