Sure. I love the concept of Esparantist communist utopia.

Our nation is Poland, but there was a great Nazbol revolution, which overthrew the PZPR and freed Poland from USSR, in 1993. The Iron Curtain still exists, but it has changed its borders.

Considering how all NSstats seem to be canon for them, no. I'd rather not be in a society where it's expected for the average citizen to ingest upwards of 6 bananas per day.

“

An island of 981 million immortals left to think, work, and create until the end of time. It is a society akin to a machine intelligence's singularity, turning rocks into guns until there are no rocks left. For what reason? Fun and profit and perhaps nothing else.

Immortality is too good a prize to pass up, even if it requires slaving away for eternity.

With diligence, bravery, and obedience

This nation does not align with my views. NS stats somewhat canon. A Class 2 Civilization according to [this index](#).
