"Huh, he loves to keep exercising and working out? Damn well you will need it - keeping your body in shape, and not becoming fat like a some twoleg kittypet is important. It seems, that he is on good terms with what seems to be his version of the StarClan - hell, I didn't knew that the twoleg beliefs about ancestors and spiritualism were so complex. However, I can say that he does a good job at running his clan, and I also commend him becoming something greater, something more than a mere figure of a ruler his father was - if anything, I have noticed that a lot of twolegs have leaders which are basically either figureheads, or have crippled amount of power. I mean, yes - if my cats would overwhelmingly hate me, they would remove me, but in the end, I still have the final say in a lot of matters. I also overall approve of him strengthening the size of his warrior pack (military) - after all, there are always more dangerous clans (countries) around."

**Shortstar, the Leader of ShadowClan and Ruler of the Forest**

AN:

"Once again, twolegs manage to surprise me - just when I thought the letters I saw were already hard, someone appears with even more complicated ones. If anything, those could very well be like some sort of marks for our ancestor clans! I appreciate him not being a devout follower of his sky ancestors - one doesn't need to be guided by random visions and prophecies, but must be strong enough to do the right thing yourself. Living cats and twolegs shape the history, not someone in the sky. I am not so sure about his clan's policies when it comes to warriors, however - it seems that they are replacing their twoleg warriors with something far-away related to the monsters which keep travelling through the thunderpath, or cut our forest's trees. This is a brand new level of waging conflict - using something like that shows, that honor stopped existing long time ago, and now merely the one with strongest tools is right."

**Shortstar, the Leader of ShadowClan and Ruler of the Forest**

(Those are more like her inner thoughts, as a human and a Warrior Cat aren't able to understand what each other is saying. Oh, and of course those interactions are not canonical for that reason)

“...What? Okay, whatever - so from my understanding, this oreo felinity is a warlord that successfully united all the differing cat clans under a single command. Now I'm not a fan of "union through gunpoint" (and the concept of "a warlord uniting different tribes through sword" reminded me of... someone, but let's not get into that). But for this situation, I'd actually agree that the end of conflicts would be the best for all the cats. Let's just hope that her iron paw will continue to be sufficiently just and her system don't, you know, collapse immediately.

"Oh my... well, this starts off confusing. So you managed to spark revolution within the borders of your nation by assuming an alter-ego who criticised islam, and then you made an alter-alter ego to push forwards your own version, and amke all your multiple personalities have a fight... why don't you just grow a pair and just say what you really feel instead of making people up. Even if you die, you'll die a martyr...

Anyways, then you wrote some novel about you and some broad named Juno Juvanna or something... personally, it's touching, but it needs more sex. Though I can appreciate him changing his country, and so on and so forth... you know the Muzzie regime is gonna be stubborn as hell, so really, why even try? They'll prolly call you out for blasphemy if you push the envelope too far,

but... all the best.

Now, I don't have much time to go too in depth, because I'm more stoned than \*coughing\* your mother's skull, but... actually, there's a couple of odd dents in the new skull bong I've been using, now that I'm thinking about it... heh. Irony, innit?"

What happens when you cross anime powers and overpowered leaders with furrries, all written by a bored Homestuck fan with too much time? Well, you get Rumei. A multiethnic, FT republic with both might and magic that let it conquer the entire Orion Arm.

A 7.6 (this is probably outdated but I can't do the calculations rn) (Tier 9, Level 6, Type 9) according to [this index](#).

Come to The Orion, we got [CULTURE](#) and [FURRIES](#)

Show Recommendation: Cobra Kai. It is very, very good.

IC Name: Roman Republic, or simply Rome (Rumei). Occasionally called the Ignisian Republic. Current year is 2697.

**THIS NATION IS A JOKE, DO NOT TAKE IT SERIOUSLY. IT'S A PRANK GONE HORRIBLY WRONG.**

All of those postmodern artists are weird these days; be it painting technicolor vaginas over politicians' mouths or going on stage in a clown costume and bending over to impossible to show that gamers, such as I, Sabato Nero, are being oppressed. All because those bastards in Bohemian Rhapsodyland actually took my socio-economic fanfiction from the 1840s seriously.
