Low effort shitpost, but alright. Could’ve at least made a comment on him being a furry smh

What happens when you cross anime powers and overpowered leaders with furies, all written by a bored Homestuck fan with too much time? Well, you get Rumei. A multiethnic, FT republic with both might and magic that let it conquer the entire Orion Arm.

A 7.6 (this is probably outdated but I can’t do the calculations rn) (Tier 9, Level 6, Type 9) according to [this index](#).  
Come to The Orion, we got [CULTURE](#) and [FURRIES](#)

Show Recommendation: Cobra Kai. It is very, very good.  
IC Name: Roman Republic, or simply Rome (Rumei). Occasionally called the Ignisian Republic. Current year is 2697.

#### Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

Joking aside, I suppose it is commendable to provide for your people and ensure their needs are being met, though this particular approach definitely isn't. It's actually quite stupid. Who has time to directly deal with everyone who decides to walk in to voice some complaint? That's what lower-level bureaucrats are for, you can't expect to personally attend to each province and village. ...What's that, Chimaira? Something to add?
