The sawdust George Lopez ate had a mini-bomb attached to it, causing his BMW M3 (which he was in), as well as himself, to explode. However, he and his car form into a new man, half-car, half-human.

New car-human hybrid (which performs like a BMW M3 would).

rename to Carman

(1st RP morsel: some detail on politics and culture of CC1)

Jointly owned by multiple corporations and public interest groups, CC1 is an enclave of the financial and commercial world deep in the heart of Red [Sea Dome](#) City.

Demonym: Corporate | Capitalist Libertarian | High corruption but educated and wealthy populace
Military: Citizen militia network, strong defending each theater but historically incapable of mounting sustained attack.
