Canon or Non-canon, [This thread](#) is the best thread! And it's dead for being a spammer hotspot. :(I base stats on NS stats, so don't bother asking me. I'm too lazy for now, but I might do it in the future.

Estonia presses the 'delete' button, deleting United Europe from the map. Now, there is the Polecat-Lithuanian Union with the lands of Poland, parts of Czechia and Slovakia, Lithuania, and Latvia. The rest of formerly United Europe is now in anarchy. The Polecat-Lithuanian Union joins the Asuncion Pact, planning to split Europe with Catalonia. In response, the newly threatened Estonia joins the Algerbil Alliance. Tensions are growing ever higher, and a world war is on the horizon.

It's not Poland, it's the Polecat-Lithuanian Union.
Catalonia aids Polecat in their war with Carolingia, and sends fascist rebels to North Dakota to destabilize Montana.

the Baluch Colony expands to Oman and eastern and southern Yemen and even reaches the tip of the African horn. They fail to take over another NEO asteroid; but they do manage to land a probe on 433 Eros so that's something.
