I rarely leave Forum 7 because I'm too uneducated for NSG and too bad a writer for any of the RP forums. F7 is the one place that accommodates my stupidity.

Same here, if I had read more books, I'd probably make better lore, facebook posts and stories for NS RPs. Don't worry akhi, we aren't the only incompetent NS users here.

When your war plan involving paragliding gunmen into concerts and have those gunmen start shooting concertgoers in order to free Palestine from the all too evil Jews didn't go as planned, so the next generation turn to more radical groups who will promise Palestine's freedom from the Jews.

The free Russia flag was creative but lazy in my opinion. Literally just a blue democratic Belarus flag lol. Europeans really need to learn to make unique flags.

Remember, Irish is a potato language. Here is my approximation of it:

Laddie, the third g is supposed to be a "p". Otherwise, it's a Welsh word meaning "my dog is shaped like a carrot".

Ye, I planned for one of my Essican states to have a rainbow flag to show diversity, not sexual diversity but racial diversity and multiculturalism. LGBT is still banned here either way so..

AAN: Remember, feel not offended of what people say on Nationstates, it is merely coloured pixels on a screen trying to trigger you.

Fun fact: If we consider a 1920 x 1080 image with 8-bit colors (so 0,0,0 to 255,255,255), ALL the possible combinations add up to around $10^{(10^7.1755)}$ images.

AN: NS Stats were eaten by rats after being forgotten about in a black cell

If the food quality of NS Stats is good, then it's a feast!
