Monkey 330 died after they lost their footing atop the Column of Constantine. They were placing a statue of Constantine on top, which they did well. However, they slipped and fell to the square below.

Monkey 315 died after seeing that Monkey 339 died 3! 3 TIMES!

Tired of having to say this: The Kingdom of Voidstania is not a kingdom. It is a communist dictatorship with a weak democratic senate under the guise of a monarchy. Normal country stuff.

Also, NS stats and policies are not canon (Because I have a tendency to click the wrong options and give myself dumb policies)

Monkey 310 questioned how Monkey 339 was still able to let alone move after EXPLODING. He was then snuck up on and eaten by Monkey 339 mere seconds later

Monkey 305, who was a sibling of 306, decided to defenestrate 300 for defenestrating 306, and told 304 of his plan while being overheard by 300, who defenestrated 305 first.

Monkey 303, 302, and 301 plotted against 300. 297 overheard and told his accomplices 298, 296, 299, and 300. In a 5v3 kind of fashion, everyone but 296 died but committed suicide at a later date.

Monkey 293 was disturbed by the recent trend of monkey suicides. So disturbed, in fact, that he himself committed suicide
