that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Les Friction - Who Will Save You Now

#### Empress of the New Pacific Order

And I don't know what we might face  
But I know I can't replace you so  
I'll do anything to save you  
And I will try to make your dreams come true
