Jeffia surrenders after getting lost in the Vietnamese jungle. It turns out that Jeff and Man both support the Oakland A's, so the Oakland A's is sent to Vietnam to perform for the dear leader.

Meanwhile, when their armies are at war, Man 1 and Jeff secretly sign a peace treaty between **ᠮᠠᠨ ᠠᠨᠠᠨᠠᠲᠤᠨ** and Jeffia.

The N!an!atoOutya citizens attempt to kill Miku and her comrades; however, Len brings out some projectors from the ruins of the government building and Miku plays a tape stolen from cyberspace, showing how terrible the N!an!atoOutya government is. The people change their mind about the government, and take over the building, marking the real beginning of Nova N!an!atoOutya.

Man in Vietnam watches the footage, and decides to propose an idea of a new holiday.

Man manages to avoid any contact with N!an!atoOutya. Sometimes, he goes to sleep thinking of going there, but he always wakes up thinking it's some weird dream.

He now works at Hollywood Heights Medical School teaching doctors on how to become "better" doctors. He tries to go to Springfield, however, unfortunately, he finds out that everything and everyone everywhere in the town doesn't make sense, and he dies trying to mock one particular individual.

He now has an interesting nickname attached to him.

Date: 11/15/2070

Man 1 and Miku mourn his death, as Nova N!an!atoOutya is a good nation, unlike the previous N!an!atoOutya.

The nickname attached to him is referred to as [გამაგიზიანი](#) (Gamaghizian) within [გეოგრაფიკი](#), which for some reason has made Georgian its official language, as of 07/21. (That was Len playing off Miku's troubles with pronouncing Georgian; Miku found it hilarious)

07/21 is then called "Betrayal day" from now on in [გეოგრაფიკი](#), and ends up being a common time for pranks to be conducted.

As it turns out, it was 07/21/2071, the multiplication was accomplished by some sort of cyberspace glitch. The glitch is fixed, but Man then performs this same glitch with Len.

Additionally, this man is a cyborg. The population of **ᠰᠠᠩᠬᠠᠨ** is now 574, and a meaningful relationship is starting to form between **ᠰᠠᠩᠬᠠᠨ** and Nova N!an!atoOutya.

Man escapes with one of Len's clones to Tunisia, although the other clones were deleted in cyberspace.

Also, oof, post #1337.

The sentence is ruled for "improper cloning through cyberspace glitches". However, the missing Len clone frees Man through the prison server, and he then goes to Nova N!an!atoOutya.

Unfortunately, there is a creeper infestation in the capital, and Man dies in an explosion. Fortunately, Miku and the N!an!atoOutya police managed to prevent most potential damage, and the server 91.184.204.37 is fixed to prevent creepers from escaping in the future.

Man never expected the cloning to backfire. However, Meiko manages the treasury server of 藤田 隆太郎; she notices the missing funds and lets Miku know about this.

Miku sees through Man's illusion due to cyberspace data and Man is arrested in **69335 94691**. He is imprisoned in 199.48.244.12 (a survival Minecraft server) for 2 weeks. The clone, however, is a free citizen now.
