Shooting a dog and then having a party

Aggravated animal cruelty—up to 7 years of confined and directed rehabilitative labor. Having a party is in itself, not illegal (unless of course it is a fascist party, comrade, ha ha). However, the circumstances would suggest high degree of callousness, making the maximum penalty more likely.

Just a fine if they obeyed to send it out. If they insist however, the horse is confiscated and must do 1 week of community service, before the horse is returned

They will pay a fine and serve their sentences in prison for up to 5 years.

Two men agree to fight at a bar, during the scuffle one man's punch knocks the other to the ground. The man then hits his head on the floor and dies.

Fyddin is a kind yet isolationist nation with a Parliament, Grand Court, and Jarl which serves a presidential role. Though laws may be strict, all decisions are made for the average benefit and safety of the citizens. The fishing trade is thriving, weed is legal, and the people are happy.

You lose Performance Credits based on whether it was intentional. If it was an accident, it's only a small amount and people laugh it off. If it was intentional, you lose a massive amount and people are scared of you for being a Disgrunt, or even a sloppy Dreadcoat operative. In the latter case, you are forced through mandatory brain scanning to ensure you aren't actually a Dreadcoat.

Singlehandedly massacring, cannibalizing and mutilating an entire company of BN's most elite special forces operators with your bare hands because you didn't get a refund
