Really digging them. I've gone through...6 of their albums. Got 2 left on Spotify (With a couple of songs missing, for whatever, which I'll listen to on YouTube), and pretty sure there are others not on Spotify that I may or may not go through.

Earth And Fire - *Storm And Thunder*

“ CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Neurosis-Fear and Sickness

I'm not a huge fan of their two earliest albums, but everything from Souls At Zero and newer is great. The Eye of Every Storm is my personal favorite.

Were their first two albums more under the hardcore, punk realm?

The Eye of Every Storm, and their first 2 albums are like, the only albums that don't appear to be on Spotify.

Edit: Okay, Pain of Mind is on here.

And...4 songs from The Eye of Every Storm....might as well just listen to it on YouTube.

Neurosis-To the Wind

This one feels much more under the post-metal realm than anything else I've heard so far.

Earth And Fire - *Song Of The Marching Children*

Dutch prog rock from the early seventies.

I'm kind of low on prog rock. Might be good to listen to at some point.

Yeah, exactly. They're in the vein of like Discharge and such. Though their second one is a bit more experimental if I remember correctly, haven't listened to either in a while.

Do so, I don't think you'll be disappointed.
